RADIATION DOSIMETRY SERVICE REQUEST SERVICE TERMINATION FORM

Instructions for completing the form:

1. The termination form is required if the company intends to continue subscribing to the service but no longer needs certain users or areas to be monitored.
2. This form can also **replace an existing user/area with a new user/area for an active subscription**. In this case, a **new User** and/or **Area Registration Form** must be submitted with justification alongside the termination form at least **30 days** prior to the end of the current wearing period to ensure seamless transition.
3. Complete all sections of the form above. Additional forms may be used for additional users/areas.
4. Please submit the termination form in PDF format to radtechservices@shena.gov.bn.
5. All issued dosimeters must be returned within 30 days after the end of the last monitoring period. Any unreturned dosimeters will be considered lost, and the company will be charged the full replacement cost.
6. A final dose report will be prepared for terminated users once all dosimeters have been returned and processed.
7. If no replacement is provided, no refunds will be issued for terminated users or areas for any remaining subscription period.
