RADIATION TECHNICAL NOTE

TOPIC Notification on Import and Export Authorisation			Reference Number 2021/RTN/01
Approved by: Director of Radiation Department	Issue date: 30 th June 2021	Expiry date: None	Revision No: 1

Purpose: This Radiation Technical Note serves to update stakeholders who have dealings and engagements with the Radiation Department under the Safety, Health and Environment National Authority (SHENA) with respect to compliance with Sections 6 and 7 of the Radiation Protection Order, 2018. **This Radiation Technical Note applies to all Radiation Licensees and is effective from 5th July 2021 until further notice.**

In an effort to streamline Brunei Darussalam's regulatory framework concerning radiation matters as recommended by the International Atomic Energy Agency (IAEA), SHENA is hereby pleased to inform that a revised version of the Import/Export Authorisation Form (SHENA/RAD/AUT/A/1 Version. 2.1) has been issued and is electronically available on SHENA website at www.shena.gov.bn.

The basis of this revision is to promote transparency in the movement of radioactive materials and controlled apparatus in Brunei Darussalam. **The previous version of the application form will no longer be valid and will be automatically rejected if used after the effective date.**

To ensure business continuity, all Licensees are to submit their future applications for Import/Export Authorisation using the latest application form via email to radapplication@shena.gov.bn.

Licensees are reminded that the total units of radioactive materials and/or controlled apparatus to be imported or exported must tally with the total units of licensed radioactive materials and/or controlled apparatus. Therefore, it is imperative that Licensees monitor the total units licensed and in your possession. Please be reminded that the end-user and forwarder for the imported/exported radioactive materials and/or controlled apparatus must be licensed with SHENA prior to consideration of any approval.

SHENA would like to remind all radiation stakeholders that it is an offence under the Radiation Protection Order, 2018 to import or export any radioactive material and/or controlled apparatus without prior written approval from the Authority.

Should further clarifications be required, please email radinfo@shena.gov.bn or contact SHENA general office line at 2382000 extension 108.

END
