RADIATION TECHNICAL NOTE (RTN)

TOPIC REVISION TO THE GENERAL REQUIREMENTS FOR RADIATION LICENCE APPLICATION			Reference Number 2025/RTN/06
Approved by: Chief Executive Officer	Issue date: 19 th September 2025	Expiry date: None	Revision No: 1

Purpose: This Radiation Technical Note provides an update for stakeholders involved with radiation matters under the Safety, Health and Environment National Authority (SHENA).

In its continuous effort to streamline the regulatory framework concerning radiation matters in Brunei Darussalam, SHENA has revised the **General Requirements for Radiation Licence Application**, which can be found on the SHENA website via this [link](#).

This guideline serves as a reference for any applicant who wishes to apply for licence to conduct any or all types of radiation activities in Brunei Darussalam in line with the Radiation Protection Act, Chapter 228 (the Act). The Act controls and regulates the import, export, manufacture, sale, disposal, transport, storage, possession, and use of radioactive materials and controlled apparatus within Brunei Darussalam.

SHENA would like to remind all radiation stakeholders to ensure their agents are aware of this new guideline.

Should there be any further clarifications on this matter, please email your enquiries to radapplication@shena.gov.bn or contact the SHENA office general line at +673 238 2000 / +673 272 2200 anytime during office hours.

END
