OTHER SAFETY CONSIDERATIONS:

- Ensure you have gained sufficient knowledge and skills to operate the machine safely.
- Machine and attachment (blade) should be checked prior to every use.
- Maintenance of the machine should be done regularly by competent person.
- No unauthorized modifications shall be made to the machine and attachments.
- Only use original manufacturer-approved parts as replacements.
- Conduct risk assessment to identify hazards and put control in place.
- Wear high visibility vest when working along or close to roads.
- Keep safe distance from other grass cutters or passersby.
- Take necessary measures to prevent heat stress and fatigue.
- Develop and implement a Standard Operating Procedure (SOP) and Emergency Response Plan (ERP).
